What should be displayed:

- 1.A <header> with the text “Welcome to my page”
- 2.A <section> with 2 photos and a small introduction to the page
- 3.A section with 4 boxes that take you to any of the other pages (I used grid to arrange the boxes)

4.A footer (used grid) with my socials that actually take you to my socials and a photo of my country flag (The footer is on every other page)

5.The navigation bar (used)

About me Page

Welcome About CV Photos Contact

**Hi, my name is Bogdan
and here you can find some interesting things about me!**

I am from Republic of Moldova and my dream is to become a person that makes the planet a better place! Since I was 8 years old I have always wanted to learn and to discover as much as I could, in other words, I am a curious person. I always had a lot of passions and hobbies about different things like reading, sports, art and technologies. When I was a kid I used to practice a lot of sports, for example swimming, gymnastics, cycling etc. But for me one of the most important sports that I've practiced is Taekwondo. From this type of martial arts I've learned a lot of important values like discipline or punctuality and I've learned to never give up and to aim for the best. I've practiced this sport for 8 consecutive years and one of my biggest achievements would be that I was a national champion in my category multiple times and even if I lost, I stood up and came back much stronger than before. I love this sport and I would give anything to relive those moments, because it was one of the best experiences of my life.

Welcome About CV Photos Contact

Also one of my biggest achievements is finishing an Informatics Academy. When I was 9 years old I became very interested in Technologies and wanted to know more about this whole IT world. So my parents signed me up at IT Step Academy where I basically learned everything about the basics of a lot of programs. I learned there for 5 years. And after that I was more than sure that I will learn more into detail after school at university. And that is how I ended up coming to IMC Krems, ready to learn a lot about this new world.

What should be displayed:

- 1.A header with the text: "Hi, my name is Bogdan and here you can find some interesting things about me"
- 2.A <section> with a photo and text about my sport life.
- 3.A <section> with a photo and a text about my IT passion.

Email

Ex.:+373987615
Phone number

Message Me!

Message

Submit

What should be displayed:

1.A “Contact me” header

2.4 boxes for First Name, Last Name, Email, Phone Number(used grid)

3.A text area “Message Me!”

4.A submit button (Not working atm)

Also each page is responsive depending on the device width/layout (responsive design)

Website Screenshot (Mobile View):

The top navigation bar is black with white text: Welcome, About, CV, Photos, Contact.

The main content area has a yellow background. On the left, there is a text box containing the following text: "This is a website about me, my hobbies and other interesting things that i am sure you didn't know." On the right is a circular portrait of a young man.

A dark grey callout box at the bottom contains the text: "Just click on one of the boxes bellow to find out more!"

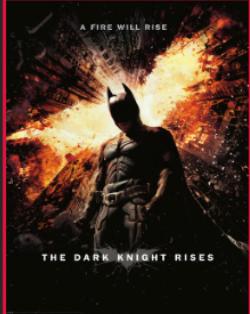

Below the callout box are four orange rectangular buttons:

-  About me!
-  See my cv!
-  Some Photos
-  Contact me!

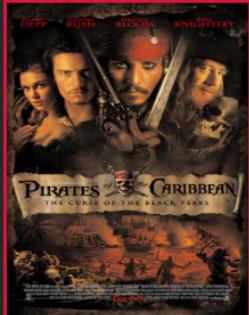

Website Screenshot (Desktop View):

The top navigation bar is black with white text: Welcome, About, CV, Photos, Contact.

The main content area has a black background. It displays two movie posters side-by-side:

-  Avengers Endgame
-  The Dark Knight Rises

Below these are two more movie posters:

-  Pirates of the Caribbean
-  The conjuring 2

Resources I used:

1. For working with flex and grid I used W3Schools and the recommended videos.
2. For the navigation I also looked at a W3Schools example
3. For the glowing effect and transformation for the photos I also used W3Schools.
